

The Fleet Maintenance Division of Hamilton Township, under the direction of the Public Works Director, provides a full line of service and repairs for all the Township vehicles and fuel powered equipment. Services include oil changes, transmission service, tire replacement/repair, tire rotation and balance, tune ups and minor/major engine repairs. We also maintain the heavy truck fleet utilized in fire trucks and maintenance trucks. These services include, but not limited to, hydraulic, pneumatic, electrical and welding repairs. We also maintain a large inventory of auto and heavy truck parts, tires, fluids (oil, lube, car and truck) in a centrally located warehouse.
