

CRIME SCENE DO NOT CROSS

Surviving the Critical Incident:

The Good, the Bad, & the Ugly

Police work is dangerous, but what happens when the officer becomes the victim of a critical incident? The first few seconds and days following the incident can have significant, long-term consequences for everyone in the officer's life. In 2018, over 60,000 officers were assaulted leading to nearly a third injured (nleomf.org). Too often, an injured officer is faced with a sudden and unexpected retirement. Sadly, this is a journey many are not ready to handle. This class will prepare you for life outside law enforcement.
